## As Seen on Oprah!

Dr. Evans on the oprah show brought along a Visia Complexion Analysis System to get a closer look at what's going on with skin. "It actually uses ultraviolet and polarized light to look deep into the skin," she says. "It shows you things that you can't see with the visible eye and you can't see with a magnifying glass."

## Free Visia SKin Analysis. A \$150 value!

Here at Suede Salon & Spa we recommend that a VISIA Digital Skin Analysis be performed during your initial one-on-one skin evaluation, as the results of the analysis provide the framework for creating a personalized treatment program designed to achieve optimal results.

**50% off any service Tuesdays & Wednesdays for new clients only!** ( must be referred by an existing salon client who will receive \$20 off for referral)

**We are proud and excited to announce that Suede is moving its Sacramento location to a larger & more beautiful location starting September 20, 2009. Our new address: 2648 Watt Avenue suite #109A. Corner of Watt Ave and Kings Way. (old Topoli location).**

## Endermologie Special
